Our Privacy and Cookie Policy describes in more detail the cookies that we use and how to remove them. Why partner with us We know our users. We've been building applications to manage document workflow for over 40 years and we know that successful document workflow solutions need to be customer focused. Our platform is built on a combination of proprietary and third party technology which helps us respond to customer requests quickly, and help maximise the productivity of those who use our solution. We have our own partner program, and we operate our own sales force. Our partners not only help to promote our solution, but also get to experience first hand the value of the solution. What's more, we have developed close relationships with our partners that allow us to provide the best value to our customers. We're only able to do that because we know our partners. Get started Get your own Login ID and download the software. Your login will include a week's free trial. Partner-only login If you want, you can receive a unique login ID for you and your team that allows us to create a unique log-in for your team. WASHINGTON — If Senate Majority Leader Mitch McConnell wanted to be a rare kingmaker in the Republican-controlled chamber, he's done pretty well. McConnell has chosen high-profile, conservative judicial nominees to get through with razor-thin margins. He's led the way in appointing district court judges to oversee a slew of regulatory agencies and has acted quickly to confirm more than 200 lower court nominees. Now he has to use his own power to confirm Brett Kavanaugh to the Supreme Court. The conservative Senate majority is determined to put Kavanaugh on the court before the midterm elections this fall and a large part of their strategy is
